PROFESSIONAL SUMMARY

Passionate **Full Stack Developer** with hands-on experience in building scalable web applications using modern frontend and backend frameworks integrated with Artificial Intelligence capabilities. Highly proficient in **Java, JavaScript, and MERN Stack** (MongoDB, Express.js, React.js, Node.js), as well as REST APIs, FastAPI. Proven track record in delivering client projects, developing production-ready solutions, and applying strong core CS foundations in DBMS, Data Structures, and System Design.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, TypeScript

MERN & Web Development: React.js, Node.js, Express.js, MongoDB, Next.js, HTML5, CSS3, Tailwind CSS

AI & Machine Learning: Large Language Models (LLMs), API Integration, FastAPI

Databases & Cloud: MySQL, Firebase, AWS, Google Cloud Platform (GCP), Cloudflare,

Developer Tools & Methods: Git, GitHub, Postman, Figma, REST APIs, JWT Authentication, System Design

Core Computer Science: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

WORK EXPERIENCE

Full Stack Developer Intern | Tech Vedhu

Sept 2025 – March 2026

- Gained practical experience developing modern full-stack web applications using Java, JavaScript, and MERN stack technologies.
- Designed and developed responsive frontend interfaces using React.js and Tailwind CSS, incorporating interactive design components.
- Built secure backend services and RESTful APIs using Node.js, Express.js, and FastAPI for seamless database-to-client operations.
- Worked with MongoDB and MySQL for efficient data management, optimizing query execution and backend storage workflows.

PROJECTS

Employee Management System

- Developed a full-stack employee management system using Java, Spring Boot, React.js, and MySQL.
- Implemented CRUD operations, RESTful APIs, and role-based authentication using JWT
- Integrated database management and optimized API performance for efficient employee record handling.

Social Blogging Platform

- Built a full-stack MERN blogging platform with JWT authentication, CRUD operations, and AI-assisted content tagging.

Smart Waste Reporter

- Created a smart city reporting system enabling image uploads, location-based reporting, and complaint tracking.

EDUCATION

2023 – 2027

Bachelor of Engineering (B.E.) – Computer Science and Engineering

RVS Institute of Technology, Coimbatore | **CGPA: 7.49**

2023

Higher Secondary (Class XII)

Dhanalakshmi Srinivasan Matric Higher Secondary School | **Percentage: 69%**

LANGUAGES

English, Tamil
